There will also be responsibility for day-to-day management and implementation of CAD standards and mentorship and training of CAD staff and will report to the Technology Management team. The successful candidate will join a fantastic team in a well- established and solid performing company with a sound reputation.

Essential requirements will be:

- A Bachelor degree in Civil Engineering
- A high degree of capability in AutoCAD – Civil 3D 2018
- Ability for immediate start
- Relevant experience

The following skills and experience are desired:

- Good understanding in bulk earthworks, roading and 3 waters infrastructure design.
- Production of technical reports, calculations and prepare engineering specifications.
- Project management and construction observation experience following NZS 3910.
- Advanced skills in Microsoft Office and Microsoft Project software.

This role will provide a sound platform to progress and drive a successful and enjoyable professional working career.

ARAL is a high-end multidisciplinary planning, civil and environmental engineering design consultancy, firmly founded on our core values of excellence, integrity, balance and respect. We offer an integrated approach to ensure that the various facets of our work are coordinated to achieve sustainable, technically optimal and cost-efficient solutions.

Our Company Values

Excellence is not a skill, it's all about attitude. Our pride in our work results in excellence.

Integrity is the essence of success. We will always endeavour to do what's right, even if it's the hard choice.
